

Md. RIAJUL ISLAM RISHUK

riajulislamrishuk@gmail.com — +8801839588784 — github.com/rishofficial

Education

Bangladesh University of Engineering and Technology (BUET) B.Sc. in Computer Science and Engineering (Level 2, Term 2)

Notre Dame College, Dhaka Higher Secondary Certificate (HSC) – Passed 2023

Jamalpur Zilla School Secondary School Certificate (SSC) – Passed 2021

Relevant Coursework

Academic Lab Coursework — BUET Core Computer Science Sessionals
2023 – Present

Completed Labs (GPA: 4.00/4.00):

- Structured Programming
- Data Structures
- Algorithms
- Object-Oriented Programming (OOP)
- Database Systems
- Digital Logic Design (DLD)

Ongoing Labs (Level 2, Term 2):

- Software Engineering
- Technical Writing (L^AT_EX)
- Computer Architecture
- Signal Processing

Projects

Flutter Quiz App [Private Repo] *Dart, Flutter, SQLite*
Mobile App Development Project

- Built a cross-platform Flutter quiz app with SQLite offline-first storage, targeting 500+ potential school students for exam prep

Slide to Lecture [Code] *Python, LangGraph, LangChain, FastAPI, edge-tts*
Interactive Presentation & E-Learning System

- Designed a LangGraph-powered PDF-to-speech engine with Gemini, converting 20+ page slides to interactive audio lectures

Circuitify — JSON-to-LaTeX Generator [Private Repo] *Python, JSON, LaTeX*
Structured Data Engineering Project

- Engineered a rule-based Python parser translating JSON schemas to complex circuit TikZ-LaTeX scripts, cutting schematic design time by 40%

Online Ticket Gateway [Code] *PostgreSQL, Express.js, React, Node.js, JavaScript*
Database Sessional Duo Project — BUET

- Engineered a full-stack booking app with PostgreSQL concurrent transaction controls, ensuring 100% consistency for 10,000+ simulated users

Online MCQ System [Code] *Java, JavaFX, Socket Programming*
Object-Oriented Programming Duo Project — BUET

- Developed a multi-threaded client-server quiz application using socket programming with chat, quiz management, and file system storage

2D Platformer Game [repo link] *C++, iGraphics (OpenGL wrapper)*
Structured Programming Project — BUET

- Built an interactive 2D platformer game in C++ using iGraphics (OpenGL) featuring custom sprites and physical collision detection

Bangla TTS Fine-Tuning Pipeline [Private Repo] *Python, PyTorch, Accelerate, HuggingFace*
NLP / Low-Resource Language Research Project

- Fine-tuned MOSS-TTS-Nano (0.1B) on 4 Bangla speech datasets, achieving competitive synthesis quality with custom sentence tokenization

Quick Screenshot [Code]*JavaScript, HTML, Chrome Extension API (MV3)**Open-Source Browser Extension*

- Developed an open-source MV3 Chrome extension, capturing active tabs and bypassing system-level copy blocks

Medium Unlocker [Code]*JavaScript, CSS (Tailwind), HTML, Chrome Extensions (MV3)**Open-Source Browser Extension*

- Created a Tailwind-styled MV3 Extension, automatically fetching and injecting mirror content for restricted articles

AI Studio TTS Auto-Config Bot [Code]*JavaScript, HTML, IndexedDB, Chrome Extensions (MV3)**Automation & Data Engineering Project*

- Built a bulk TTS generation bot simulating typing actions and caching inputs in IndexedDB, automating daily runs with zero rate-limit blocks

Skills

Programming: C/C++, Java, Python, Dart, SQL, JavaScript, HTML, CSS, Bash**Frameworks & Libraries:** React.js, Node.js, Express.js, Flutter, FastAPI, JavaFX, Hugging Face, LangChain, LangGraph**Databases, Tools & Infra:** PostgreSQL, pgvector, Git, GitHub, Supabase, Chrome Extension API (MV3), Socket Programming**AI/ML:** LLM Fine-Tuning, Retrieval-Augmented Generation (RAG), Speech Synthesis (TTS), FSRs Spaced Repetition (Actively learning, will get better soon)
